1 Remove existing doorbell

Turn off the power at the breaker. Remove your existing doorbell and disconnect the cables

2 Connect the Doorbell camera to existing cables

Remove the faceplate from the doorbell camera and connect the doorbell camera to the existing doorbell wiring. Use the included power connector if needed.

Power Connector

(16 VAC to 24 VAC)

Resistor

Wi-Fi Video Doorbell

- It doesn't matter which cable connects to which screw.
- Please cornect the included resistor to the doorbell if no electrical chime or mechanical chime is connected.

3

Choose the faceplate that best matches your frontdoor. Mount the faceplate with the included security screws. Then restore your home power at the breaker.

Screws

Security Screw
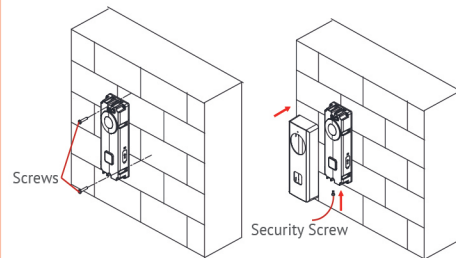

4 Complete the in-app setup

Download and install **LaView Connect** from App Store or Google Play Store. Select the option to add a new device. Select **Doorbell Security Camera** and follow the in-app instructions
